COMPLICE

Fire and Burglary Protection

Fully manufactured in our own factory in France, Compline is a range of safes offering dual fire and burglary resistance to both private and professional users; it gives priority to ease of use and ergonomics.

Key features

PROTECTION

- ✦ Certified burglary resistance as per EN 1143-1 (Grade 0)
- ✦ Certified fire resistance as per EN 15659 (30 minutes for paper documents). Note: only for models with 20, 40 or 80 litres of storage capacity

CAPACITY

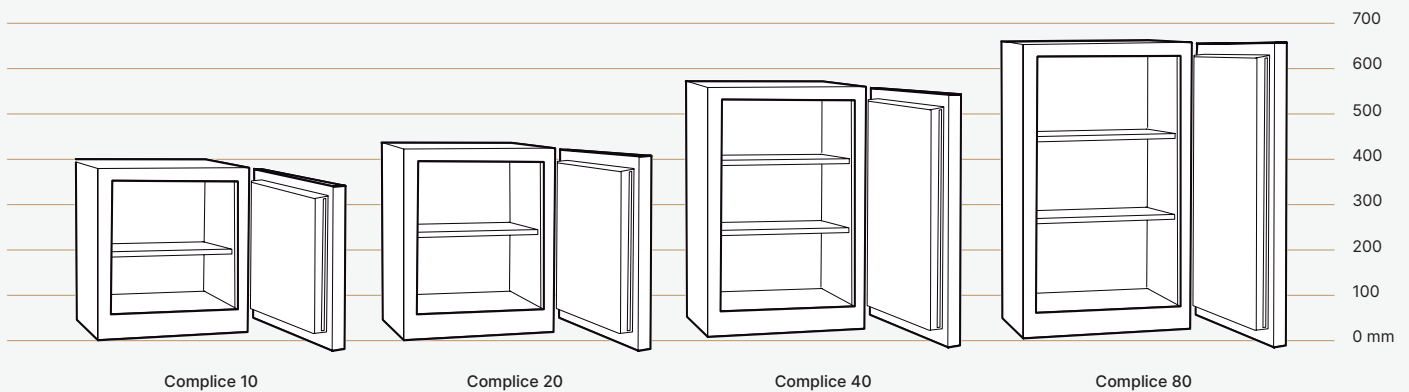

- ✦ 10 litres
- ✦ 20 litres
- ✦ 40 litres
- ✦ 80 litres

KEY BENEFITS

- ✦ Compact design for easier integration
- ✦ Superior finishings (premium materials, protective hinge covers, etc.)
- ✦ Also available for wall-mounted installation (models with 10, 20 or 40 litres of storage capacity)

Fichet-Bauche guarantees

Our products are subjected to the most stringent tests approved by insurers and A2P-certified by France's National Centre for Prevention and Protection (CNPP). This is the result of integrating our own test laboratory into our factory to impose conditions going even further than those of certifying bodies. Installation is also carried out by our own technicians to ensure certification of your safe is always preserved.

Technical specifications

Fichet Locks

A2P-certified locks as per European standards EN 1300:

- ✦ High security MPX mechanical key lock +3 counting cylinders
- ✦ Nectra electronic lock

MPX mechanical key lock +3 cylinders

Nectra electronic combination lock

A hallmark of our brand

With 200 years of experience as master locksmiths, we develop and manufacture our own exclusive locks. This is one of the key strengths of our safes and a guarantee of high security. We remain committed to permanent investment in R&D, always looking for more functionality, more resistance, new materials and more advanced lock technologies.

Product details

Complice safes meet the most stringent standards for burglary and fire resistance to deliver optimum protection for your essential documents and valuables. Available with capacity ranging from 10 to 80 litres, Complice safes have been designed to provide an efficient storage solution answering your personal or business security needs. They guarantee certified protection as well as an efficient combination of ergonomics and elegance. Their sleek design and stylish black colour are matched with all accessories, such as their ergonomic handle ensuring both fast opening and real user comfort.

PERFORMANCE AND SECURITY

- ✦ Complice safes are built with robust steel sheets and a high-resistance mineral composite material. All models feature an 87mm-thick door equipped with protected hinges. A full-height bolt provides additional resistance in the event of an attack—together with an anchorage bar on the hinge side to prevent lifting or heeling. Both door and hinges are tested through repeated opening and closing to ensure durability. A special mechanism designed to resist burglary using mechanical or thermal tools will block the door permanently on detection of attack.
- ✦ **Burglary protection:** all models have been tested by the CNPP laboratory and awarded its A2P certification label for compliance with European standards EN 1143-1
- ✦ **Fire protection:** Complice safes with 20, 40 and 80 litres storage capacity also offer ECB-S certified fire protection (LFS 30P Grade as per EN 15659, i.e. 30 minutes for paper documents)
- ✦ **Locks:** mechanical or high security electronic lock (A2P certified as per EN 1300)

INTERIOR FITTINGS AND OPTIONS

- ✦ Shelves
- ✦ Anchoring kit included for safes weighing less than 1,000kg (mandatory as per EN 1143-1 requirements)

Atelier Boonen

Authorised Fichet-Bauché dealer in Brussels

Fichet-Bauché Complice

Sales, delivery and installation by our own technicians,
in Brussels and throughout Belgium. After-sales service, safe opening,
repairs and combination changes by our own workshop.
