OPTURA

Certified Fire & Burglary Protection

Taking full advantage of Fichet-Bauche expertise in high-risk security, Optura vault doors are designed to resist the most recent tools and methods of attack.

Key features

PROTECTION

- ✦ Certified burglary resistance as per EN 1143-1 (Grades V-XI)
- ✦ Certified fire resistance as per NT Fire 017 (60 minutes for paper documents)

CAPACITY

Defensive thickness

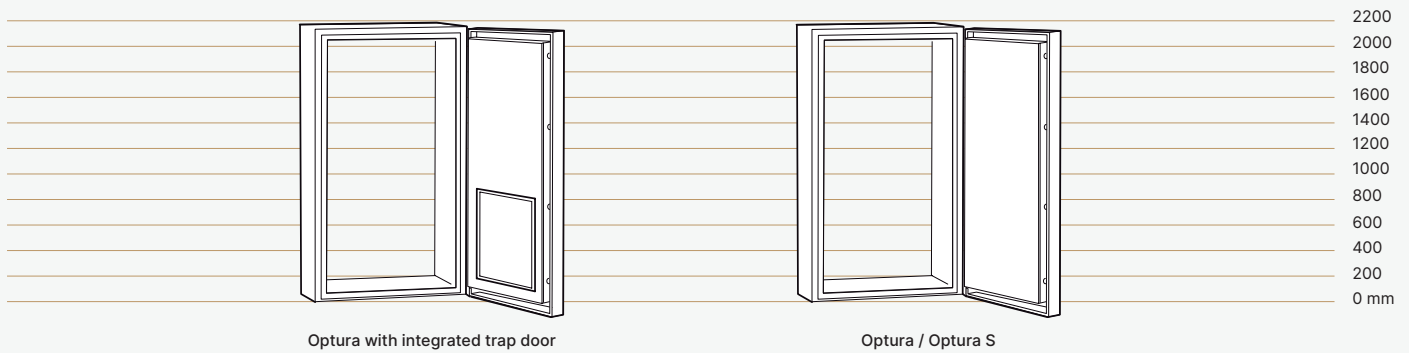

- ✦ 100 mm
- ✦ 180 mm
- ✦ 280 mm

KEY BENEFITS

- ✦ Very high levels of certified protection (up to Grade XI)
- ✦ Wide choice of locking options
- ✦ Integrated trap door with full certification (Grade V only)

Fichet-Bauche guarantees

Our products are subjected to the most stringent tests approved by insurers and A2P-certified by France's National Centre for Prevention and Protection (CNPP). This is the result of integrating our own test laboratory into our factory to impose conditions going even further than those of certifying bodies. Installation is also carried out by our own technicians to ensure certification of your safe is always preserved.

A hallmark of our brand

With 200 years of experience as master locksmiths, we develop and manufacture our own exclusive locks. This is one of the key strengths of our safes and a guarantee of high security. We remain committed to permanent investment in R&D, always looking for more functionality, more resistance, new materials and more advanced lock technologies.

Product details

For most organisations, the safeguarding of valuable objects or documents is absolutely imperative. In sensitive sectors such as banking, retail, logistics or pharmaceuticals, large amounts of money or valuables are often kept on site, which increases the need for high-quality security solutions. Forming an integral part of the structure in which it is built, a vault always delivers the highest level of protection against burglary.

PERFORMANCE AND SECURITY

Optura vault doors offer among the highest levels of security currently available:

- ✦ A2P-certified burglary protection as per EN 1143-1 (Grades V/E to XI/E)
- ✦ Optional 2 hour fire protection for the sealed frame version
- ✦ Two types of installation (sealed frame and panel frame)
- ✦ Compatible with certified modular panels of the same grade Core Drill
- ✦ Protection with diamond tool testing (Grade X and XI models)
- ✦ Fichet-Bauche high performance composite barrier material
- ✦ Multiple rectangular bolts (3 to 5 depending on model)
- ✦ Full-height rear anchorage bar or active bolts (depending on model)

INTERIOR FITTINGS AND OPTIONS

The following options are available:

- ✦ Ground doorstop with support plate
- ✦ Wall doorstop with mounting kit
- ✦ Door wedging/adjustment kit
- ✦ 50mm drum
- ✦ 100mm drum
